

Inviting You To PREPARE FOR EXCELLENCE! With The Newton Academy

FOSTER CONFIDENCE AND LEADERSHIP SKILLS

Our professional coaches set high expectations, but they understand the importance of positive communication and clear direction. Their encouragement builds player confidence and focus.

“Not only is our daughter a more skilled and confident soccer player on the field, but she is also a more confident kid off the field too!” - Marisa, Academy parent

Rigor

THRIVE WITH INCREASED COMPETITION AND INTENSITY

We have over 200 players in the program and spots are in high demand. Since partnering with NEFC in 2020, our Academy Teams have competed with the best private clubs in the state and opened up additional player pathway opportunities at DPL, NPL and GA level.

MAKE TECHNICAL WORK A TOP PRIORITY

Players make great strides in their ball mastery skills. First touch, working with the non-dominant foot, receiving the ball and striking technique are only a few of the fundamentals that we stress. We have had an excellent response to the Techne App. Some Academy players topped all NEFC players in their dedication with this online App and the extra work is showing up on the field!

PREPARE TO SHINE IN HIGH SCHOOL

Our U15 Coaches have the unique job of preparing players interested in playing High School soccer. Caleb and Owen are two experienced high school coaches who have been with the program from the start. They work with the 8th graders and focus on improving skills, team play, and provide deep focus on the offensive and defensive aspects of the game.

Expertise

“With 18 girls and 2 coaches focused on their development, the leap in ability, understanding and confidence in the players over the course of a year is massive.” - Coach Owen

DEVELOP A FOUNDATION FOR LONG-TERM SOCCER GOALS

“Newton North and Newton South Girls Varsity Teams are filled with players from our Newton Academy Program. It's great to see their success!” - Coach Shaun, Director of Coaching, Newton Girls Soccer

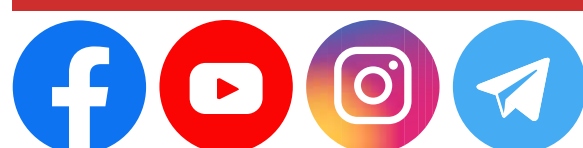

Vision

BALANCE PERSONAL GROWTH WITH FRIENDSHIP

“The Newton Academy program provided me with the perfect environment to take the initiative to push myself and take soccer more seriously, while simultaneously being able to see my friends and have fun! This balance helped me to nurture my love for the game, become a more confident player and it allowed me to realize that I wanted to pursue soccer further: I have played at Newton South, on an ECNL club team, at Trinity College and I also play with a semi professional summer team! With each step, I always know that it is critical to be adequately prepared to meet the next challenge! I first learned about the importance of preparation from the Academy program.” - Cassie, former Academy player

REACH US

The Newton Academy Program is an invitation-only, year-round program (fall, winter & spring) for girls in grades 2 - 8 seeking an additional competitive challenge and a developmental soccer experience beyond their NGS Travel Team. The grade 2 program is for training-only, with a focus on developing fundamental technical skills. We have two levels of involvement for players in grades 3 - 8: Academy teams and Development Academy teams. Players at both levels are professionally coached, train as a team once a week (in addition to their Travel team practices), scrimmage regularly, receive free access to the Techne Futbol App, and play futsal in the winter. Our Academy teams (not Development teams) also participate in club games every Sunday (fall & spring) in NECSL.
