

Soccer Bucket List! Dream Big!

In the next month, brainstorm a list of soccer goals that you want to experience or achieve. Below are some ideas to help players set goals. Have FUN with it and don't be afraid to dream big!

- Master a move.
- Write down a juggling goal.
- Set personal game goals: create an amazing assist, score multiple goals, make a “free kick” or a great save!
- Become an expert on a certain position.
- Dream about the level of soccer you ultimately might want to play or coach one day...
- List a soccer stadium that you would like to visit in the future.
- Dream of an event that you would like to attend: NCAA Championship, World Cup, or the Olympics?
- Jot down teams and players you would like to see play. Would you like someone's autograph?

Pro Tip: For those goals you want to start working on NOW, consider: *How much time will you commit to practicing and pursuing your goals? Who could help you make plans to achieve your ambitions? Is there a player you can watch or video tutorials available?*

Write your Soccer Bucket List Goals in the open spaces of the soccer ball below and email it to
